all aboard

"and the Spirit and the bride say, 'come!' and let him who hears say, 'come!'" rev 22:17

"all aboard." that's the call which is made when a means of transportation is ready to depart; be is a bus, a train, a ship or a plane. that "twinkling of an eye" is perhaps that one time it won't be heard.

there will be no fore warning; no announcement made over a loud speaker that this is the last chance to board. you know, that thing you meant to take care of at the end of your life - there will be no announcement that time has now run out. multitudes will be caught unaware. i don't know if they will even fully understand the gravity of what has happened.

but it's not as if one is left without warning. for centuries, even millennia, the cry or warning has been going forth. signs and wonders in the heavens have also borne witness. even the very hearts of mankind cannot stand in denial. "for since the creation of the world His invisible attributes are clearly seen, being understood by the things that are made, even His eternal power and Godhead, so that they are without excuse." rom 1:20

one word has been coming into my mind lately; over and over. it is "escalation." there has been an acceleration of things every since the nation of israel was reborn. now, much like interest building upon

interest or as snowball expands as it rolls down a hill, events are now mushrooming upon themselves. there is an explosion of evil and its manifestations; a setting aside of good for evil, light for darkness; truth for deception.

evil is rising in our times. it is a huge "sign." it is the "hour of the power of darkness." the caution is always that when we obsess about evil, when we think of it too much, we give it power. on the other hand, when we ignore it, we allow it free rein. to see the level of evil is simply to note the level of materialism and the prevalence of occult tattoos or the spirit behind many "reality" shows. evil is often subtle; it is often refined.

reported recently in a psychiatry meeting it was stated that in the past month they have seen an epidemic of college students having nightmares, sleep paralysis and being attacked by 'succubi.' in the light of current spiritual events, that is not surprising in this vulnerable population. a psychiatrist at the meeting said that many of the patients say they 'wake up with something on top of them' and that they experience terror, bad odors (like rotting food) and also that they often only feel the attacks and cannot see anything.

evil spirits are forming "a great, worldwide attack as part of satan's grand plan. the objective of the demon of greed for this end time is to destroy the economy of the world. this is necessary in order to allow the people of the world to accept the anti-christ. he will bring them a good-looking but false economy.

in turn, the warring demons must totally destroy peace from the earth. the anti-christ will be accepted because he is bringing peace to the earth, but this peace will also be false. the demons from the third order must trample down God's true religion in order for the anti-christ to bring a one-world religion into existence."

satan is real. demons are real. evil is real. they will be given a time to rein, but let us all proclaim in one accord: "not on our watch." we have the Holy Spirit, the Word of God, and the authority endowed in us by the victory of Jesus. "for the mystery of lawlessness is already at work; only He who now restrains will do so until He is taken out of the way." 2 thes 2:7 the Holy Spirit cannot be taken out of the way without taking us with Him because He indwells us. maranatha!

so let this serve as a warning call; a last call if you will - all aboard who's going aboard. keep looking up and know you have your boarding ticket in hand.
